Final Audit Report  
Audit #: 15-5238  
Provider ID # [REDACTED]

Dear [REDACTED]

The New York State Office of the Medicaid Inspector General (OMIG) has reviewed Report 2013-S-12 from the Office of the State Comptroller (OSC), which examined Medicaid payments made to University Hospital of Brooklyn for physician administered J-Code drugs from April 1, 2013, through September 30, 2013. In accordance with Section 517.5 of Title 18 of the Official Compilation of Codes, Rules, and Regulations of the State of New York (NYCRR), this notice shall serve as our final audit report of the recently completed review of payments made to University Hospital of Brooklyn under the New York State Medicaid Program. Since you did not respond to our draft audit report dated February 9, 2016, the findings in the final audit report are identical to those in the draft audit report.

### **BACKGROUND, PURPOSE, AND SCOPE**

The New York State Department of Health (DOH) is responsible for the administration of the Medicaid program. As part of this responsibility, the OMIG conducts audits and reviews of various providers of Medicaid reimbursable services, equipment and supplies. These audits and reviews are directed at assessing provider compliance with applicable laws, regulations, rules and policies of the Medicaid program as set forth by the Departments of Health and Education (Titles 8, 10, and 18 of the NYCRR) and the Medicaid Management Information System (MMIS) Provider Manuals.

OSC is responsible for overseeing the fiscal affairs of State agencies, public authorities and local government agencies, as well as their compliance with relevant statutes and their observance of good business practices. This fiscal oversight is accomplished, in part, through audits performed pursuant to authority under Article V, Section 1 of the State Constitution and Article II, Section 8 of the State Finance Law. OSC audits identify opportunities for improving operations, strategies for reducing costs, and strengthening controls.

Ordered ambulatory policy requires Medicaid providers to bill physician administered J-Code drugs at actual acquisition cost (per invoice).

The purpose of this audit was to identify overpayments caused by overcharging the acquisition cost of physician administered J-Code drugs. The audit covers claims paid by Medicaid from April 1, 2013, through September 30, 2013.

OMIG has determined that University Hospital of Brooklyn's failure to comply with New York State Public Health Law, Social Services Law, Medicaid Policy, and Titles 8, 10 and/or 18 of the Official Compilation of Codes, Rules and Regulations of the State of New York (NYCRR) resulted in a total overpayment of \$8,810.33.

### REGULATIONS OF GENERAL APPLICATION

In addition to any specific detailed findings, rules and/or regulations which may be listed below, the following regulations pertain to all audits:

Regulations state: "By enrolling the provider agrees: (a) to prepare and to maintain contemporaneous records demonstrating its right to receive payment . . . and to keep for a period of six years from the date the care, services or supplies were furnished, all records necessary to disclose the nature and extent of services furnished and all information regarding claims for payment submitted by, or on behalf of, the provider . . . (e) to submit claims for payment only for services actually furnished and which were medically necessary or otherwise authorized under the Social Services Law when furnished and which were provided to eligible persons; (f) to submit claims on officially authorized claim forms in the manner specified by the department in conformance with the standards and procedures for claims submission; . . . (h) that the information provided in relation to any claim for payment shall be true, accurate and complete; and (i) to comply with the rules, regulations and official directives of the department."

*18 NYCRR Section 504.3*

Regulations state: "Fee-for-service providers. (1) All providers ... must prepare and maintain contemporaneous records demonstrating their right to receive payment . . . (2) All information regarding claims for payment submitted by or on behalf of the provider is subject to audit for a period of six years from the date the care, services or supplies were furnished or billed, whichever is later, and must be furnished, upon request, to the department ... for audit and review."

*18 NYCRR Section 517.3(b)*

Regulations require that bills for medical care, services and supplies contain patient name, case number and date of service; itemization of the volume and specific types of care, services and supplies provided; the unit price and total cost of the care, services and supplies provided; and a dated certification by the provider that the care, services and supplies itemized have been in fact furnished; that the amounts listed are in fact due and owing; that such records as are necessary to disclose fully the extent of care, services and supplies provided to individuals under the New York State Medicaid program will be kept for a period of not less than six years from the date of payment; and that the provider understands that payment and satisfaction of this claim will be from Federal, State and local public funds and that he or she may be prosecuted under applicable Federal and State laws for any false claims, statements or documents, or concealment of a material fact provided.

*18 NYCRR Section 540.7(a) (1)-(3) and (8)*

*18 NYCRR Section 518.3(b)*

## **AUDIT FINDINGS**

The following audit findings reflect the results of our audit. This audit report incorporates consideration of any additional documentation and information presented in response to the draft audit report dated February 9, 2016. Since you did not respond to the draft audit report, the findings remain the same. The findings in the final audit report are identical to those in the draft audit report.

### **Billed in Excess of Actual Acquisition Cost**

Medicaid policy states, "Reimbursement for drugs furnished by practitioners/providers to their patients is based on the acquisition cost to the practitioner/provider of the drug dose administered to the patient. For all drugs furnished in this fashion it is expected that the practitioner/provider will maintain auditable records of the actual itemized invoice cost of the drug, including the numbers of doses of the drug represented on the invoice.

New York State Medicaid does not intend to pay more than the acquisition cost of the drug dosage, as established by invoice, to the practitioner/provider. Regardless of whether an invoice must be submitted to Medicaid for payment, the practitioner/provider is expected to limit his or her Medicaid claim amount to the actual invoice cost of the drug dosage administered."

*New York State Medicaid Program Ordered Ambulatory Procedure Codes, Version 2012-1*

Medicaid policy states, "Fees in the Fee Schedule are the maximum reimbursable Medicaid fees and are available at <http://www.emedny.org/ProviderManuals/OrderedAmbulatory/index.html>"

*New York State Medicaid Program Ordered Ambulatory Procedure Codes, Version 2012-1*

In 5 claims, physician administered J-Code drugs were billed in excess of the actual acquisition cost. This resulted in an overpayment of \$8,810.33 (Exhibit 1).
