

## **OMIG AUDIT PROTOCOL – HOSPICE FOR SERVICE DATES PRIOR TO 8/31/2016**

**03/14/2019**

---

Audit protocols assist the Medicaid provider community in developing programs to evaluate compliance with Medicaid requirements under federal and state statutory and regulatory law. Audit protocols are intended solely as guidance in this effort. This guidance does not constitute rulemaking by the New York State Office of the Medicaid Inspector General (OMIG) and may not be relied on to create a substantive or procedural right or benefit enforceable, at law or in equity, by any person. Furthermore, nothing in the audit protocols alters any statutory or regulatory requirement and the absence of any statutory or regulatory requirement from a protocol does not preclude OMIG from enforcing the requirement. In the event of a conflict between statements in the protocols and either statutory or regulatory requirements, the requirements of the statutes and regulations govern.

A Medicaid provider's legal obligations are determined by the applicable federal and state statutory and regulatory law. Audit protocols do not encompass all the current requirements for payment of Medicaid claims for a particular category of service or provider type and, therefore, are not a substitute for a review of the statutory and regulatory law. OMIG cannot provide individual advice or counseling, whether medical, legal, or otherwise. If you are seeking specific advice or counseling, you should contact an attorney, a licensed practitioner or professional, a social services agency representative, or an organization in your local community.

Audit protocols are applied to a specific provider type or category of service in the course of an audit and involve OMIG's application of articulated Medicaid agency policy and the exercise of agency discretion. Audit protocols are used as a guide in the course of an audit to evaluate a provider's compliance with Medicaid requirements and to determine the propriety of Medicaid expended funds. In this effort, OMIG will review and consider any relevant contemporaneous documentation maintained and available in the provider's records to substantiate a claim.

OMIG, consistent with state and federal law, can pursue civil and administrative enforcement actions against any individual or entity that engages in fraud, abuse, or illegal or improper acts or unacceptable practices perpetrated within the medical assistance program. Furthermore, audit protocols do not limit or diminish OMIG's authority to recover improperly expended Medicaid funds and OMIG may amend audit protocols as necessary to address identified issues of non-compliance. Additional reasons for amending protocols include, but are not limited to, responding to a hearing decision, litigation decision, or statutory or regulatory change.

This document is intended solely for guidance. No statutory or regulatory requirement(s) are in any way altered by any statement(s) contained herein. This guidance does not constitute rulemaking by OMIG and may not be relied upon to create a substantive or procedural right or benefit enforceable, at law or in equity, by any person.

<b>10.</b>	<b>Missing Documentation of Supervision Visit</b>
<b>OMIG Audit Criteria</b>	If the record fails to document that a registered nurse made an on-site visit to the patient's home to assess the hospice aide's services no less than every 14 days, the claim will be disallowed.
<b>Regulatory References</b>	42 CFR § 418.76 (h)(1)(i) 42 CFR § 418.104 (a)(1) 42 CFR § 418.104 (a)(3) 42 CFR § 418.104 (d)
<b>11.</b>	<b>Failed to Maximize Third Party/Medicare Benefit</b>
<b>OMIG Audit Criteria</b>	Medicaid providers must take reasonable measures to determine legal liability to pay for medical care and services. No claim for reimbursement shall be submitted without provider investigation of the existence of such third parties.  When it is determined that a sample service was covered or reimbursed by third party insurance in whole or in part, the amount Medicaid incorrectly paid will be disallowed.
